

# FAST PWG II Acoustic Water Pipe Location

## Water Solutions

The FAST PWG-II is a special location tool for all water pipes irrelevant of whether they are metal, plastic, or another material.

The PWG-II injects an acoustic pulse wave into the pipe, which makes up to 600meters of pipework detectable. The system is simply connected onto the pipe from the meter, valve, hydrant, or top tee. The battery powered unit is switched on and the acoustic waves are injected into the pipe. Using any ground microphone such as the FAST Aqua M-Series, the noise from the pipe can be located, and the subsequent line of the pipe traced.

### Features:

- Easily locates non-metallic potable water pipes
- Operates at pressures as low as 2 Bar
- Compatible with any ground microphone
- Simple to use
- Cost effective pipe location
- Up to 600meters location

# FAST PWG II Acoustic Water Pipe Location

## Water Solutions

Product Specification	Part Number
FAST PWG-II Pulse Waver Generator	300260
<b>Spares and Additions</b>	
PWGII Short Piston	300261
PWGII Long Piston	300262
PWGII Standpipe for Hydrants	300263
PWGII Top Tee 32mm Connection	300264
PWGII Top Tee 63mm Connection	300265
PWGII Control Cable Extension 5m	300266
PWGII Power Cable	300267
PWGII Mains Adaptor 12v 4A	300268
PWGII Car Charger 12v	300269
