

The SebaKMT HL7000 is a simple compact wireless acoustic and gas leak detection system for water pipes

The HL7000 is a state-of-the-art combination system that is versatile but simple to use. The ergonomically designed system not only looks the business but does the business. In its base format it uses a wind proof ground microphone. However, three additional sensors can be attached, A Feeler rod sensor a Piezoelectric microphone or a Tracer Gas sensor. Versatility in one simple package.

- Wireless Bluetooth operation
- Intuitive operation with clear touch colour display screen
- Rechargeable lithium-ion batteries
- Integrated GPS receiver
- Environmental / extraneous noise reduction
- Frequency analysis
- Optional – Connection of a tracer gas sensor
